### Summary

I'm a backend developer with expertise in creating robust, scalable, and efficient APIs. I have extensive experience working with Node.js, Express.js, MongoDB, and various other backend technologies. My projects span across fintech, healthcare, e-commerce, and education sectors, focusing on building secure and high-performance applications. I stay updated with industry trends and continuously enhance my skills. Let's collaborate to create exceptional software solutions.

### Work Experience

#### BACK-END DEVELOPER

Allied Technologies Pvt Ltd **Internship**

June 2024 - Present

- Developed RESTful APIs using Node.js to support backend functionality.
- Implemented authentication and authorization using JWT and OAuth.
- Utilized Express.js for efficient routing and middleware integration.
- Conducted extensive API testing with Postman to ensure reliability and Performance.

#### UI/UX DESIGNER

Allied Technologies **Internship**

October 2023 - January 2024

- Researched current design trends, techniques and technologies related to UI and UX design.
- Developed interactive prototypes for mobile applications as well as websites.
- Optimized web pages for maximum speed and scalability using best practices in UI and UX design.
- Collaborated with developers to ensure compatibility between design and technical implementation.

### Projects

#### Food Delivery App Backend Development

Developed a robust backend for a food delivery application using Node.js, Express.js, and MongoDB. Key features include secure user authentication with JWT, comprehensive order processing and cart management, real-time delivery agent tracking, and a rating and review system for menu items and restaurants. Integrated Cloudinary for efficient image uploads and management. The system enhances user experience by providing seamless order handling and efficient coordination of delivery agents.

### Educational History

#### BACHELOR OF INFORMATION TECHNOLOGY

Gujarat Technological University

2021 - Present **CGPA:7.63**

#### HIGHER SECONDARY EDUCATION

Seth C.M. High School & Higher Secondary School

2019 - 2021 **Percentage : 74.30%**

## Affiliations & Awards

### GRAND FINALIST OF SSIP 2023

#### *Hackathon*

##### ***Project Description:***

- Developed a system to efficiently gather and monitor urgent, time-bound information from district government offices and state departments, such as District, Taluka, and Gram Panchayat.
- Utilized color-coded indicators (red and yellow) to highlight data based on importance.
- Ensured critical information is quickly identified and addressed by higher-level authorities.

##### ***Recognition:***

- Recognized as a grand finalist at SSIP's 2023 hackathon.
- Highlighted for its innovative approach and potential impact on improving the management of urgent information in government offices.
