PROFESSIONAL SUMMARY:

I'm a web developer specializing in creating visually appealing and functional websites. Skilled in HTML, CSS, and JavaScript, I've worked across various industries including blogging, finance, e-commerce, and education. My focus is on crafting websites that align with client brands and objectives. Committed to staying updated with industry trends, I constantly seek opportunities to enhance my skills. Let's collaborate to create outstanding websites that are both attractive and user-friendly.

PROFESSIONAL SKILLS:

- Html
- Css
- JavaScript
- Figma

- Git & GitHub
- AngularJS
- NodeJS
- Database (Sql & Nosql)

INTERNSHIP :

Alliedge Technologies

UI/UX designer | 3 -Months
- Researched current design trends, techniques and technologies related to UI and UX design.
- Developed interactive prototypes for mobile applications as well as websites.
- Optimized web pages for maximum speed and scalability using best practices in UI and UX design.
- Collaborated with developers to ensure compatibility between design and technical implementation.

ACHIEVEMENTS:

Grand Finalist of ssip's 2023
- The project aims to develop a system that enables efficient gathering and monitoring of urgent, time-bound information from various district government offices and state departments, such as District, Taluka, and Gram Panchayat.
- To ensure that important information doesn't go unnoticed, the system will utilize color-coded indicators like red and yellow to highlight data based on its importance, helping higher-level district authorities to quickly identify and address critical matters.
- The initiative was recognized as a grand finalist at SSIP's 2023 hackathon, highlighting its innovative approach and potential impact in addressing the challenges faced by district government offices and state departments in managing urgent information effectively.

EDUCATION:

2021 - 2025 | Government Engineering College,Modasa
Bachelor of Information Technology
